## **R/C Unlimiteds Stages Its Second Annual Hydroplane Exhibit**

R/C Unlimiteds, the oldest and most active radio controlled hydroplane racing club in the United States, is staging its second annual exhibit at the Hydroplane & Raceboat Museum facility in Kent, Washington, on Saturday, Feb. 18, 2006

The public is invited to come and view scale racing models, meet club members, and ask questions from noon until 4p.m.

The exhibit will be staged inside the Hydroplane & Raceboat Museum with the backdrop of seven full-sized unlimited hydroplanes which have been restored by the museum. The new museum facility is located in Kent, Washington. Directions to the museum are available on the museum's website ([www.thunderboats.org](http://www.thunderboats.org)) and on the attached flyer. Admission is free to all current museum members, \$5 for non-members over 16 years of age, \$3 for students 15 and under, and free to all children 5 and younger. This is a great family event and all ages are encouraged to attend.

R/C Unlimiteds is a club organized to participate in a racing series dedicated to replicating the excitement of unlimited hydroplane racing at 1/8 scale. The radio controlled boats comply with a strict set of rules to preserve the look and feel of the full scale unlimited hydroplanes that they represent. ER/CU, a sister organization which races 1/10th scale electric powered scale hydroplanes will also present examples of their class of raceboats.

Club members participate in a highly competitive 15 race season, known as the Oh Boy! Oberto Championship Series, which draws them to races all over the state of Washington throughout the spring, summer and fall. The typical R/C Unlimiteds raceboat can travel up to 60 mph, powered by a .67 cubic inch, two-stroke race motor running on 60 percent nitromethane fuel. This is highly competitive racing with well crafted and highly competitive machines, which will be on display to the public at this event.

More information about R/C Unlimiteds can be found on their website ([www.rcunlimiteds.org](http://www.rcunlimiteds.org)). The R/C Unlimiteds Championship Series and the Hydroplane & Raceboat Museum are both sponsored by the Kent- based Oberto Sausage Company.
